

Join the [VITA Accelerator](#) 2022 Demo Day online or in Rome at Casa Angelini, HQ of Angelini Industries, courtesy of the VITA Ecosystem Partner Angelini Ventures for the festive culmination of a 4-month Acceleration Program, where VITA will showcase their first cohort of promising digital health start-ups and share the insights from a unique journey with [VITA Partners](#), mentors and experts since October 2022.

All this time VITA [Alumni](#) have worked hard to bring their companies to the next level as well as engage in the pilot projects with the Innovation Partner Zcube, the Corporate Partners Petrone Group and SIFI Group. You will hear the start-ups pitches and will be able to see their demos.

The Demo Day will bring together the VITA Accelerator's network of brightest healthcare innovators, investors and ecosystem players (representatives of the patient associations, hospitals, pharma and life science companies, university incubators).

VITA will also announce the opening of the submissions for the VITA '23 Program, scheduled to start late spring 2023.

About VITA Accelerator

VITA Accelerator is the Digital Health Accelerator of CDP National Accelerators Network, born from an initiative of CDP Venture Capital Sgr together with Healthware Group and Accelerace.

The program also benefits from the support of Zcube - Zambon Research Venture, as Innovation Partner, and the Corporate Partners Petrone Group and SIFI Group, and the Technical Partner Orrick.

VITA Accelerator aims at accelerating both Italian and foreign startups willing to do business in Italy in cooperation with key Italian and international operators, investors and corporates. The Accelerator also has the objective of strengthening and nurturing the Italian digital health ecosystem, as well as promoting it internationally. More info at: www.vitaaccelerator.it
